Hydration throughout the day

There are lots of opportunities for residents to hydrate over the course of a day.

Night time

Ensure your residents have a glass of water by their bedside at night.

Early morning

Drinking a glass of water 30 minutes before breakfast can aid digestion.

Dinner

Vegetables such as tomatoes, radishes and spinach each contain over 90% water and make tasty additions to most meals.

Breakfast

Enjoy milk in cereal – it's as hydrating than water!

Mid-afternoon

Serve snacks such as ice creams and milkshakes to boost hydration.

Lunchtime

Food can contribute to around 20% of fluid intake, so serve dishes high in water content such as delicious Knorr® Professional Soups.

Mid-morning

Share a glass of water with your residents, along with a healthy snack such as watermelon or strawberries that are naturally packed with water.

Top tips to increase hydration among residents

1

Include foods such as soups, jelly, custard, ice cream, yoghurt and puréed fruits in your daily menu.

2

Have a social 'happy hour' where drinks are offered inviting the residents to socialise.

3

Set up hydration stations around the home.

4

Find out each resident's favourite drink and offer this first.

Grow Your Own

Your residents will see the importance of hydration for themselves with this fun, engaging activity. Watercress seeds can be planted indoors all year round – but, like humans, they need water to thrive!

1 **grow**

Plant your seeds in small plant pots and as per the on-pack instructions.

2 **water**

Water them regularly to keep the soil moist.

3 **plant**

Watch them grow and prosper!

Spot the Difference

Ice cream not only tastes great and provides added calcium, it's also perfect for helping to boost hydration.

Can you spot all 5 differences?

Keep in Touch

Staying in touch with loved ones isn't always easy for your residents. That's why we've dug down into the Unilever archives and created this exciting and engaging set of postcards using historic and iconic adverts.

Print out the postcards on thick card and use them to encourage your residents to reminisce about times gone by, then ask them to write a note to their family, a friend or loved one on the reverse whilst enjoying a refreshing glass of water. Then, address them, stamp them and pop them in the post, to help delight and reassure each and every recipient.
